

## **About H el ene DEKONINCK**

I have been painting since adolescence. After taking art classes in Toulouse and Paris, and practicing figurative drawing in charcoal and watercolor, I started in the abstract (acrylic or oil on canvas) that gives me more freedom in creation.

I let myself be guided by my feelings and emotions that inspire me for the realization of my paintings. My paintings oscillate between graphic forms, rather structured and more fluid forms, "light" (curves, volutes).

My achievements are not locked in a fixed style but evolve according to the meetings, changes, dynamics and surprises of life. They are also derived from my personality, both decided, energetic and imaginative, creative. A constant: through the freedom of shapes and colors, strive to convey energy, strength and harmony.

This site allows you to discover some of my abstract paintings. See the presentation brochure and my resume with the links on my french page of this website.

Good visit !
